

## RESIDENTIAL PEST CONTROL

Protects you and your family against 22 different pests by focusing on insect entry points, proper product usage, and creating exterior barriers. We DO NOT come in with a sliver can and spray chemicals all over your baseboards! Ongoing services concentrate on reapplying the exterior protection since 85-90% of pest problems come from outside. Additional Inside services are provided as needed or upon request between scheduled outside services.

**ELIMINATE UNWANTED PESTS!**

## COMMERCIAL PEST CONTROL

This service implements an Integrated Pest Management strategy which minimizes chemical usage, utilizes proper mechanisms, establishes written procedures, and conforms with Federal, State and Local regulations.
