

Letter to our GREAT Customers - as of 03.16.2020

We just want you to know that we are praying for the health and safety of all of our great customers. With that in mind we are closely monitoring the situation with the Corona virus COVID-19 with the assistance of the CDC, the World Health Organization and the Department of Agriculture. We have implemented our safety procedures to insure the safety of our co-workers and customers.

As always we will continue to provide you and your family with the best possible protection against insects by focusing our treatments to the exterior of your home. If you are having insects inside please call us to set up an interior treatment. With the precautions being implemented by our local, state and federal officials, we will all be spending more time in our homes. This means spending more time outside in our yards.

For the next 30 days we will be discounting all of our Fire Ant Yard Treatments and Mosquito Protection Services for all existing and new customers, allowing you to enjoy your yard pest free. Our sister Retail Company [Pest Solutions](#) currently stocks a commercial grade concentrated disinfectant product that will make 64 gallons of a disinfectant for \$99, Call (985) 643.9009 if you are in need of this product.

We value and appreciate you as our customer and fully understand that we only exist because of you. We will get through this tough time by working together in our community. If you have any questions or concerns please do not hesitate to contact us.
